sneakerstrut This is what \$10,000+ of fake sneakers that passed through @stockx looks like. I bought about 62 pairs of Uni/Mocha/Hyper Royals through StockX over the last month. Of those, 36 have failed authentication at CheckCheck and LegitCheck app. I haven't tried to sell them through eBay or Goat, but somebody else who's been buying their pairs from StockX told me these pairs have been failing through Goat authentication at a very high rate.

This means that StockX's authentication on these pairs is only 42% accurate - 58% of pairs they are selling will be marked as "not legit" consistently by other sources.

There's a huge problem here.

Of course, StockX support is silent when brought up through support channels. Any human authentication system is gonna have errors, but whatever StockX is doing right now is not working. And the ability to fix these errors is nearly non-existent. #stockx

peterteepee @stockx instead of making nfts why don't you concentrate on not letting fakes pass, embarrassing. @nicekicks @hypebeastkicks @sneakernews @sneakercon

jz.kickz Now imagine if you sell em back to stockX, what if they come back as fake but how can the shoe be fake if the you got em STRAIGHT from stockX ? 🤔

sneakerstrut @jz.kickz lol it's happened to others. i'm not selling these shits back and making it somebody else's problem. stockx prolly pass em a second time too

sudsnsnpu11 Imagine owning a business that is projected to be valued at \$30 billion by 2030 and you only get shit correct maybe 50% of the time...WOW! I've only bought a handful of kicks off of StockX but after seeing this, I think those days are numbered....

239.jsp @sudsnsnpu11 if this was actually true then maybe try testing GOAT and Ebay with the same method. Use shitty apps to check your shoes and the real statistic is how many times checkcheck and legitcheck get it wrong

jonseo This makes me worried about my Mocha's! I bought them Feb 2021. I don't think the fakes were as good back then, trying to CheckCheck them but can't add credits for some reason.

239.jsp @jonseo dont waste your money on an app bro get em legit checked in person u actually trust an APP more than StockX?

4d

jonseo @239.jsp when I bought them I had someone come with me and take a look at them for me. But this is getting out of hand with the reps.

4d

 this is getting out of hand with the reps.

239.jsp @jonseo Reps are super good now that i personally think legit checking is dead. You aren't safe shopping anywhere getting fakes is a risk buying online

pete.sneaks I got fake Travis af1 that came with crusty socks in the toe boxes from goat with the dashed lines. Couldn't get someone to talk to so returned them under their new policy and took the 20\$ loss for shipping

mvjd_ @tinkersneaker this has been happening since 2018 just became a bigger issue as they grew as a company too. Plus in the beginning I know people who didn't even legit check their shit from stock x, but needed 10 opinions when buying locally.

 **239.jsp** @retrolob If somebody sold reps they could've let them sit outside for a month and the smell would be gone. Reps come straight out the factory vs reals sitting for a year and then being sold

 **239.jsp** Aight bro spending that much money on stockx and having them checked thru apps that aren't trusted. I'd like you to rethink what you're saying and maybe, just maybe legit check them by hand you used a far worse LC service than StockX these numbers are pretty far off. You've spent too much to mess up
